### **European Agriculture and Rural Economy-Henry Colman 1850**

**Study on the State of Agriculture in the Caribbean**-Food & Agriculture Organization 2019-08-24 This report supports the development of the new Caribbean Development Bank's agricultural policy and strategy by identifying key trends in agriculture in Borrowing Member Countries, as well as opportunities for investment to promote growth and ensure sustainability. It also identifies new value chain opportunities, including the tourism industry, the growing yachting sector, and domestic cassava value chains. Today, countries face major challenges as they strive to improve the competitiveness of their agricultural sector. However, there is great potential for strengthening market linkages and helping farmers, fishers, and agri-food businesses catch up with current technologies. Through the promotion of inclusive and sustainable agricultural development, the bank can contribute to overcoming major socio-economic and environmental challenges in the region, including food and nutrition insecurity and youth unemployment. The study concludes that the bank can play an instrumental role in supporting countries in meeting their Sustainable Development Goal targets - particularly with regard to socio-economic and environmental challenges - including poverty (SDG 1) food and nutrition insecurity (SDG 2), obesity (SDG 3), youth unemployment (SDG 8), resilient infrastructure (SDG 9), gender inequality (SDG 5), sustainable use of natural

resources, and climate change (SDG 13).

**The Repertory of Arts, Manufactures, and Agriculture-** 1818

**Fruit and vegetables - your dietary essentials-**Food and Agriculture Organization of the United Nations 2020-12-15 The International Year of Fruits and Vegetables 2021 (IYFV), as declared by the UN General Assembly in Resolution A/RES/74/244, aims at raising awareness of, directing policy attention to, and sharing good practices on the nutritional and health benefits of fruit and vegetable consumption, the contribution of fruit and vegetable consumption to the promotion of diversified, balanced and healthy diets and lifestyles, and reducing loss and waste of fruits and vegetables. This background paper outlines the benefits of fruit and vegetable consumption, but also examines the various aspects of the fruit and vegetable sector from a food systems approach: from sustainable production and trade to loss and waste management. This paper provides an overview of the sector and a framework and a starting point

for discussion for the Year, highlighting the interlinkages of stakeholders and key issues to be considered for action during the IYFV.
